**REEFER CHARTERING N.V.**

Seatrade Reefer Chartering N.V. is an international shipping company with over 65 years experience in the transport of perishables and other sensitive cargoes.

Over the years shipping has evolved and Seatrade has broadened its services to keep pace with the changes in the market and in our customers' needs: shipping has become logistics.

Seatrade has launched the concept of **FDD** as the new standard in the logistics of perishables. **FDD** stands for **FAST**, **DIRECT** and **DEDICATED**.

Loading and discharging at fruit ports allows for **FAST** loading, discharging and clearance of cargoes on board, with vessels sailing **DIRECT** from fruit port to fruit port without transshipment of cargoes, offering the shortest transit times.

Seatrade is **DEDICATED** to the specialised supply chain, be it palletized or containerized, thus offering transport possibilities to a wide range of customers and cargoes. This means that Seatrade's container services enjoy the same direct fast connections usually reserved for customers of specialised services only.

Seatrade's services do not stop at shipping from port to port alone: other logistics services include picking up the cargo from the packing station, and delivering it all the way inland to the receiver. This means that door-to-door delivery concepts can be offered for both palletised bulk commodities as well as more exotic container deliveries.

At Seatrade we understand that keeping a schedule and delivering your cargoes on time are instrumental in keeping your business successful!

Seatrade Reefer Chartering N.V.
