

StreamLines

StreamLines is a young, dynamic and enthusiastic shipping and logistics company always ready to help best serve you and your customers' needs.

We provide fast delivery of cargoes to and from a wide range of ports in the Caribbean, Central and South America, and Continental Europe through our various services.

We offer weekly sailings from Europe to Russia, Ireland and Spain, among others, that facilitate quick and seamless connections for both local cargoes, and those originating from outside Europe. StreamLines also offers fast and convenient connections to a number of other regional and intercontinental destinations.

Our door-to-door services extend the market reach of our customers' goods, allowing them to cover a wide range of hinterlands in Germany, UK, France and Eastern Europe for example. We have a high quality network of trucking and feeder operations in place to provide fast and reliable pre- and on-carriage possibilities.

A tight network of agents is working 24/7 to provide both cargo and clients with efficient, on-the-spot service.

Our business is to ensure that your business runs smoothly, and that your cargo reaches the destinations and markets where its true value is realised.

As our core competencies are in the handling of your refrigerated cargo, "**at StreamLines, we breathe cold air**". Our flexible and highly skilled team allows us to go a step further, and accept a wide range of dry and break bulk cargo.

StreamLines N.V.
