

Antwerp, 31 December 2018.

Dear valued clients,

Seatrade gladly announces the deployment of its new **Zodiac Reefer Service**, which is to be fully operated by us. As from the first week of January 2019, we will perform a rotation which offers a very fast transit time from the Caribbean into Europe, and on its way back, connecting France with the French West Indies.

Continuing with Seatrade’s philosophy of providing our clients with a Fast, Direct and Dedicated approach to their needs, this service will not only bring a reliable alternative, but also a unique transit time from Guatemala and Honduras (Puerto Cortes seasonal), and a second loader at Turbo and Moin (Japdeva) allowing our loyal customers to spread their harvesting days while always getting the Seatrade service benefits for their cargo.

EB voyage	Portsmouth	Vlissingen	Radicatel
POL / POD	Tuesday	Wed-Thu	Friday
Turbo	17 days	18 days	20 days
Thu - Fri			
Moin	15 days	16 days	18 days
