

Antwerp, May 27th, 2016.

Dear clients of Blue Stream Service,

Streamlines is continually working to improve the quality of service we provide our clients. We proudly announce an important enhancement to our sailing schedule. Our new schedule improves transit times throughout our system and provides port calls that are even better suited to our business partners.

The new rotation has several advantages, among which we can highlight:

- Rotterdam on Wednesdays: improving the transit time from Central America and Florida, and securing a better connection to feeders.
- Tilbury on Thursdays: cargo can be delivered more safely before the weekend, avoiding extra costs and delays for being in hands of the receivers.
- Radicatel: arriving on Fridays, for departure early Saturdays, keeping cut off time unchanged.
- Guadeloupe on Mondays: transit time from France is improved by two days, with early arrival in the week.
- Fort de France: kept unchanged for calling on Tuesdays.
- Philipsburg on Wednesdays: arriving one day earlier than before and better connecting to feeder to the adjacent islands.
- Puerto Limon on Sundays, less waiting time for the cargo at port, reducing costs and helping to provide a faster service.
- Puerto Barrios arrival on Wednesdays for departure on Thursdays, with faster transit times, now to Florida in just 2 days and Europe in 13 days.
- Puerto Cortes as last port of call in Central America the transit time to Florida and Europe is improved by two days.
- Port Canaveral on Saturdays, reducing the time at port for export cargo arriving during the week.

Transit time

From	To	Pointe a Pitre	Fort de France	Philipsburg	Limon	Puerto Barrios	Puerto Cortes	Port Canaveral
From	To	MON/MON	TUE/TUE	WED/WED	SUN/MON	WED/THU	THU/THU	SAT/SUN
Rotterdam	WED/THU	11	12	13	17	20	21	23
Tilbury	THU/FRI	10	11	12	16	19	20	22
