Dear valued clients,

Always looking for providing the best possible service to our customers, StreamLines is glad to announce changes on our Blue Stream Service which will enhance its reliability and long term competitiveness.

Blue Stream rotation will be incorporating a sixth ship, consolidating into its West Bound schedule the market previously served on Rayo Service for Europe to Curacao and Aruba. The transit time to those two islands will remain to be the best in the market, and always served on a direct weekly service, which is unique in the industry.

The new Blue Stream West Bound rotation, which is to be implemented as from Rotterdam 18-August on vessel Boston Trader, is as follows:

Blue Stream Westbound Europe to the French West Indies and Antilles:

ETA Port of Discharge		Guadeloupe Pointe a Pitre Wed	Sint Maarten Philipsburg Thu	Martinique Fort de France Fri	Curacao Willemstad Mon	Aruba Barcadera Wed

For the East Bound leg, Blue Stream Service will remain to offer the same rotation and similar transit times from Central America to the US and Europe, but now on a much more solid schedule, that can certainly better secure its reliability. Starting in Puerto Limon as from 14-August on vessel AS Fortuna, the rotation will be based on six ships, looking as follows:
