

Antwerp, 26 December 2018.

Dear valued clients,

Following up our previously released information about the changes on our Central America and Caribbean to Europe Service, StreamLines proudly announces the upgrading of its weekly fast, direct, dedicated Blue Stream Reefer Service.

As from January 2019 the weekly service will deploy five container vessels with high reefer capacity intake between Colombia, Costa Rica, the United Kingdom, the Netherlands and the Antilles.

From Cartagena, Santa Marta and Puerto Moin the Eastbound leg leads into London Gateway, Vlissingen and Rotterdam where feeder connections to several outports will further extend our clients' reach, while on the Westbound leg, StreamLines will continue to offer a premium direct service to Aruba and Curacao, now with improved transit times, and with the added flexibility for connecting westbound cargo into Cartagena, as well as Santa Marta and Puerto Moin.

The first sailing from Central America Eastbound is to occur on week 01/2019, and the first sailing from Europe to the Dutch Antilles is planned for week 03/2019.

Eastbound	London Gateway DP World Sunday	Vlissingen Verbrugge Monday	Rotterdam RST North Tuesday	Westbound	Willemstad CPS Sun/Monday	Oranjestad Astec Monday	Cartagena Contecar Thursday
Cartagena Contecar Thursday	17 days	18 days	19 days	London Gateway DP World Sunday	14 days	15 days	18 days
